

# THANK YOU...THANK YOU!!!

The Soundwatch New Vessel Campaign was a huge success! The following individuals and organizations generously contributed to the campaign helping to raise more than \$80,000. Thank you to all who have contributed ... your contribution made a positive impact on this program. Without you, we would not be able to effectively perform our mission!

## “Cheers to all of our supporters!”

Soundwatch is expanding the program to have at least one patrol boat always at the ready during whale watch season. A second boat will be available for times when two boats are needed to manage busy boat traffic and will also enable Soundwatch to undertake special local projects such as monitoring sites within the San Juan County Marine Stewardship Area and National Wildlife Refuges.

You can still contribute to this important program: operational funds are always appreciated and needed! Contact the Soundwatch Program Director, Kari Koski (soundwatch @whalemuseum.org) or the Museum's Executive Director, Jenny Atkinson (jenny@whalemuseum.org).
